<i>Trillium vaseyi</i>	Sweet Wakerobin	KY	5" Coir	1.25qt	8	\$ 12.00

NOTE: Stock identified as "MI Genus" or "MI Seed" under MI County (of origin) originated as purchased Michigan genotype plugs or seed from a Michigan Native Plant Nursery

The *Trillium grandiflorum* offered are a Leelanau County genus and grown from seed to blooming size (5-7 years). When available, additional from State sanctioned rescue will be offered with County of origin noted.

The Large Yellow Lady's-Slipper offered (*Cypripedium parviflorum* v. *pubescens*) are divisions of purchased Conservancy rescued stock dating to the mid-90s. A 'Bill of Sale' will accompany all sales being specimens are a 'Native Michigan' genus thus a State Protected Species.

Outstate Trillium' are fall purchased bare-root from ethical wholesale sources & grown onsite for at least one full season to both confirm the species (or hybrid) and afford additional MDARD inspection before sale.

A few spring ephemeral numbers are listed with a '?', caused by the 'Rats With Bushy Tails' digging. Therefore I will not know until spring emergence if I deem any sellable.
